* Frost-free from May 15–November 15 in Zone 5; Frost free from May 23 by lake and in protected areas; from May 30 over the hill

The frost free dates in our region can be anywhere from mid-May to mid-June, depending on how protected your garden is. See http://www.duluthcommunitygarden.org/Newsletters/mar_apr_09.pdf, page 4. The DCGP office has a supply of Remy, a light-weight, protective fabric which offers several degrees of frost protection, plus insect, and to some extent, deer protection, too.
